IMPORTANT : depuis le 1er décembre 2021 les prévisions Côtieres et Hauturières sont à consulter dans des fichiers séparés:

- Prévisions Hauturières: [data_data.xls](#)
- Prévisions Côtieres: [data_cotier.xls](#)

La dernière version du Logiciel d'achat à distance (v1.9.2 du 16/11/2020) est à télécharger en cliquant [ICI](#).

Si besoin d'assistance, téléchargez AnyDesk en cliquant [ICI](#) et contactez nous !

Pour les entreprises dotées de firewall/pare-feu bloquant la connexion du logiciel, il est nécessaire d'ouvrir des ports TCP sur une liste d'@IP et DNS, que nous vous fournirons sur demande (mail à service.si@keroman.fr). Informations à indiquer ensuite à votre service informatique.

Merci et bonne journée!

- Run the downloaded file on the workstation from which remote purchases will be made.
- Note: This software only operates in a Microsoft environment.

FIREWALL CONFIGURATION: for companies equipped with firewalls blocking the software's connection, it is necessary to open TCP ports on a list of @IP and DNS. See the table below.

- **Note:** In case of interruption of the main Internet purchase line of the Auction, the software will automatically connect to the backup line.

Software Usage

1. Click on the desktop shortcut.

2. On the login screen, enter the access codes provided to you upon validation of your registration at the auction:

a. **Access code:** LOR-XXXX

i. XXXX = buyer code provided to you

ii. Don't forget to add "LOR-" before your code (if you wish to buy simultaneously at the auction, please contact us).

b. **Secret code :** the password provided to you.

3. Click on

4. **You are connected**, see at the bottom of the software

a. You are on the main purchase line of the Lorient auction (*criee.keroman.fr*)

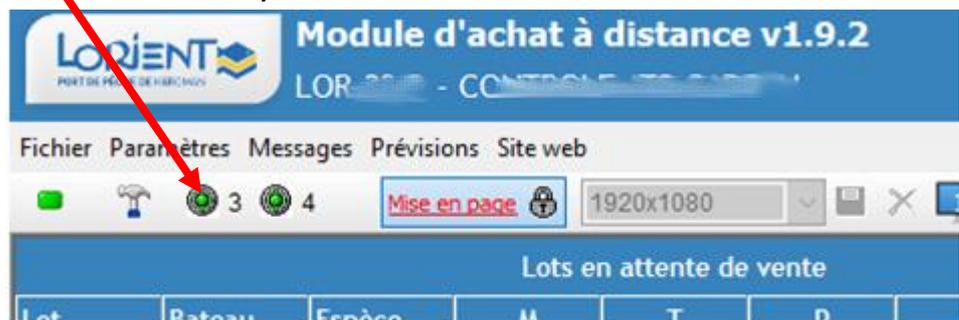

b. The numbers on the right indicate the quality of your internet connection... it should be green to participate in auctions. If your connection is not sufficient, the top menu

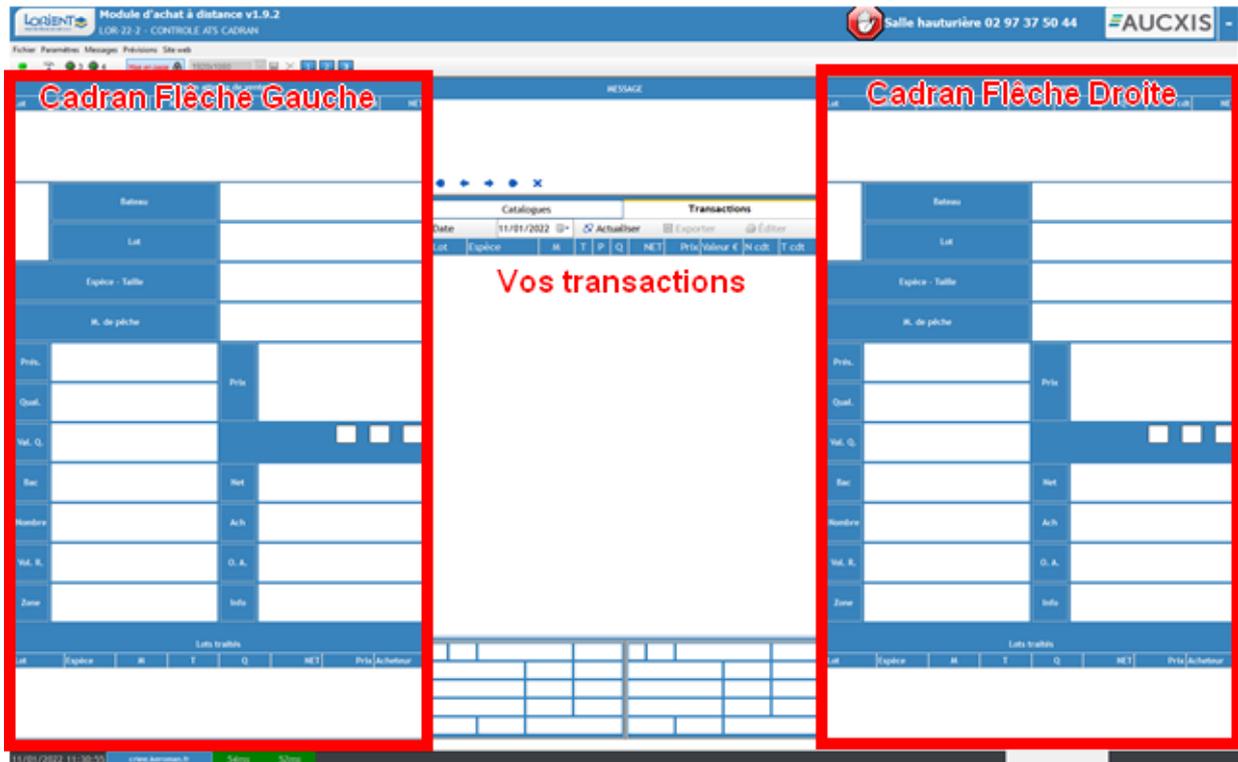

of the software turns red, and you cannot participate in auctions.

5. Display of « Cadrans » :

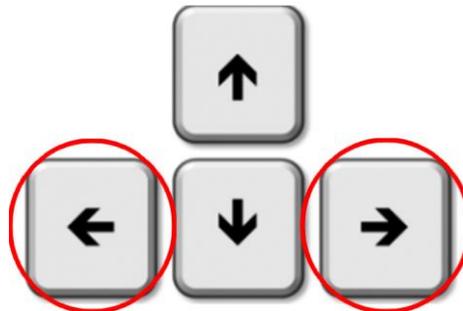

- a. The list of ongoing sales (« Cadrans ») is displayed with green dots at the top of the software. Pass over them to see the corresponding sale name
 - i. 1 = Coastal 1 / Cotiere1
 - ii. 2 = Coastal 2 / Cotiere 2
 - iii. 3 = Offshore 1 / Hauturière 1
 - iv. 4 = Offshore 2 / Hauturière 2

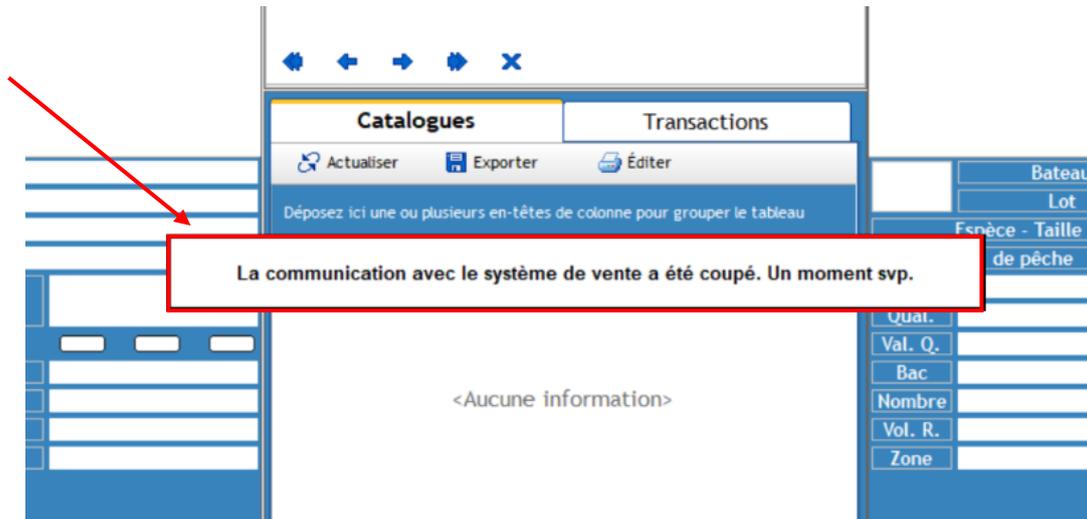

- b. You can choose the 2 sales dials to display by moving the green dots on the right or left menu.
- c. Lots scroll on each of the two dials live from the auction.

6. **To buy:** use the LEFT and RIGHT arrows on your keyboard to bid on lots in the current sale depending on the dial on which you want to buy.

7. In case of interruption of the main internet purchase line of the auction, you will see the following message

- No action is required, wait a few moments for the backup line to take over.
- You are now connected to the backup purchase line, criee1.keroman.fr.
